

## **ADAMS 240 TENDER TRAILER UNIT**

The Adam's 240 cubic foot skid tender has been specifically designed and built for Big W Sales with custom features for the fertilizer industry in California, Arizona and Nevada. Custom features include hydraulic auger raise and lower, a stainless steel fuel tank, stainless steel oil tank, 20 HP Honda engine and a roll tarp. All standard equipment. The Adam's tender combined with the Big W Sales 16,000 lb. GVW trailer makes it one of the best built self-contained fertilizer tender and trailer units in the industry.
